

## Registrars' Order

*The Enforcement of Money Judgments Act,  
The Personal Property Security Act, 1993,  
The Land Titles Act, 2000 and  
The Operation of Public Registry Statutes Act.*

### Regarding Recommencement of Judgment Registry Services

Whereas subsection 15(1) of *The Operation of Public Registry Statutes Act* reads as follows:

15(1) Notwithstanding any other Act or law, if, in the opinion of a registry officer or the minister, the circumstances are such that it is not practical to provide one or more registry services or functions, a registry officer or the minister may, by order, suspend all or any registry services or functions for the period during which, in the opinion of the registry officer or the minister, those circumstances prevail.

Therefore I, Karen E. Banks, Registrar of Titles, and I, Sheri A. Hupp, Registrar of Personal Property Security do hereby determine that the following must be employed during the recommencement of the Judgment Registry:

#### **Protecting against auto-expiry of judgments from the Judgment Registry.**

The recommencement of services and functions related to the Judgment Registry are as follows: with the service disruption, a judgment holder may have lost opportunity to extend a renewed judgment that was registered with an automatic expiry date.

Pursuant to subsection 43.1(1) of *The Personal Property Security Act, 1993* and clause 29(1)(b) of *The Enforcement of Money Judgments Act* judgments that have expired or will expire in the period immediately after service recommencement must remain registered in the Judgment Registry for an additional time period.

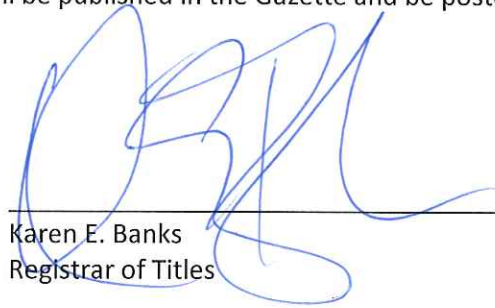

Pursuant to section 97 of *The Land Titles Act, 2000* any affected titles must be immediately locked on the recommencement of Land Registry services and functions for Registry personnel and prior to Registry services and functions being made available to the public to prevent any intervening registrations; thereafter the titles must be corrected, to return the judgment to the title.

The automatic extensions to be applied are as follows:
