Dear Valued Customer:

RE: GeoSask Website Terms and Conditions of Use Agreement

Thank you for using the *GeoSask Website* (www.geosask.ca) to obtain Saskatchewan geographic mapping information. We are contacting you to remind you about the GeoSask Website Terms and Conditions of Use Agreement for All Users (the "Standard Use License Agreement") that you agreed to as a user of this website.

Under the Terms and Conditions, data accessed and downloaded from the GeoSask website categorized as "Restricted Data", such as Saskatchewan Cadastral Data and Sask Grid Township Data, can only be used for internal use, public policy research or educational purposes provided that ISC is acknowledged as the source of the data.

However, **Restricted Data cannot be used for commercial purposes** (such as reselling, repackaging, combining the Restricted Data with other data, creating digital or hard copy maps or other products for resale) unless you enter into a license agreement with ISC separate and apart from the GeoSask Website Agreement.

Please contact ISC at ask@isc.ca or 1-866-275-4721 to discuss how to enter into a license agreement to use Restricted Data for commercial purposes.

ISC is committed to meeting customers' needs. As part of this commitment, we need to ensure users are accessing and using Geomatics Data from the GeoSask Website according to the Terms and Conditions. Thank you in advance for your cooperation.

Sincerely,

Wayne Adams
Director, Surveys and Geomatics
Information Services Corporation (ISC)
