Introduction

The Judgment Registry is a database of active federal and provincial judgments, provincial maintenance judgments and federal writs of execution that are registered against goods and lands in Saskatchewan. It was established under Section 18(1) of *The Enforcement of Money Judgments Act*. The act came into force on May 28, 2012.

The Judgment Registry replaces the Saskatchewan Writ Registry, which in turn replaced the general records of the former Saskatchewan Land Titles offices. Under *The Land Titles Act, 2000*, all judgments have to be registered in the Judgment Registry to affect goods and lands in the province.

Anyone can search the land registry at any time to determine if a judgment has been registered against a particular title or interest.

The principal change that will be visible to users is that the wording on a number of screens will change from “Old Wording” or “Old Wording and Maintenance Order” to “Judgement”. The functionality of the applications and systems will not be affected, however—only the wording will be changed to reflect the changes of the new legislation.

The affected screens include:

- OLS
- Conditions
- Select Interest Transaction Type
- Registration
- Interest Discharge
- Package Management Setup
- Packet Report
- OLS Reports
- Transfer Summary
- Registration Summary
- Interest Discharge Summary

This document identifies these changes and how the affected systems will appear once the act has been proclaimed.
