

Internal File Numbers and Registered plan Numbers

Several titles in Districts throughout the province reference internal file numbers in addition to the actual registered plan number assigned. In order for conversion to proceed in a timely manner, it is important to reference the registered plan number, and not the internal plan number, on the Request for Conversion.

For example, on a Request for Conversion in Saskatoon, the correct Legal Land Description Reference would be Lot X, Block Y, Saskatoon, Plan G4296, not Plan (FK). Plan (FK) is an internal file number that appeared on the paper titles and the records of civic addresses kept by the City of Saskatoon. Plan G4296 is the registered plan number.
