Registering a Registration Discharge

This manual explains how to discharge an active registration in the Saskatchewan Personal Property Registry (SPPR). A discharge can occur once the active registration is no longer required, as the item has been satisfied.

If the discharge is for a registration that pertains to a judgment (writ), the judgment will be removed from the Judgment Registry and any associated titles it was registered on.

Accessing a Registration Discharge

Once you are signed in:

1. Click the **SPPR Application** link on the left-hand side of the signed in homepage. The SPPR application will open and a welcome screen will display. You will notice that your client number appears automatically at the top of the screen, followed by your name in brackets.
2. On the welcome screen, click the **Registration** dropdown menu.
3. Select **Discharge** from the **Registration** dropdown menu.

Discharge Setup (Step 1 of 5)

1. Enter the number of the registration you wish to discharge in the **Registration #** field.
2. If the registration has a RIN, enter it in the **Registration Identification # (RIN)** field. If the registration has a RIN number and you do not enter it, the system will not allow you to amend this registration. You will receive a message that says “**Invalid Registration # and/or Registration Identification Number (RIN) combination.**”

For more information on RINs, click the following link:

3. Enter a client reference number into the **Client Reference** field. This will be the reference number you use in your organization, such as a file number, account number, loan number etc. The client reference will display on your statement, reports and output list. It will allow you to recognize a transaction easily.
4. Click the **Proceed** button.
